

YASH JARIWALA

Team Lead – IoT Applications | +91 9820004296 | yashjariwala@gmail.com | www.linkedin.com/in/yashjariwala

PROFESSIONAL SUMMARY

Team Lead – IoT Applications with 4+ years delivering enterprise-scale mobile and BLE Mesh solutions (6,000+ nodes) for smart lighting. Skilled in Agile/Scrum leadership, IoT system architecture, and cross-platform mobile apps (Android & iOS). Proven track record of improving reliability by 30%, reducing costs by 30%, and driving adoption through performance optimization, UI/UX design, and global client engagement.

EXPERIENCE

Senior Application Engineer - Lumens Technologies Pvt. Ltd May 2023 - Present

- Directed complete redesign of the Plexilent app UI to modern standards, enhancing usability and overall customer satisfaction.
- Engineered scalable app architecture for 6,000+ nodes, improving network reliability by 30% and reducing downtime by 20%.
- Bridged Objective-C and Swift in iOS, building reusable UI libraries to streamline custom interface elements across platforms.
- Provided technical leadership and close mentorship to three junior engineers, cutting issue resolution times by over 40%.
- Increased QR code scanning speed and reliability by 20% with a custom-built Java library using Google’s Camera2 API.
- Designed advanced features including Human-Centric Lighting, dynamic scheduling, and effects for a richer user experience.
- Managed 10+ high-profile exhibitions and secured 8 high-value B2B partnerships, boosting brand presence significantly.
- Oversaw security and maintenance of 6+ enterprise websites, mitigating DDoS threats and ensuring consistent 99.9% uptime.
- Received the “Above and Beyond” award for outstanding performance and significant product contributions.

Executive – New Product Development - Lumens Technologies Pvt. Ltd April 2022 – May 2023

- Led full lifecycle development of Plexilent IoT apps, boosting overall feature adoption by 20% and streamlining core workflows.
- Directed complex migration from Silicon Labs to Telink chipsets, cutting hardware costs by 30% and accelerating release timelines.
- Built an innovative login-free mesh sharing solution with Firebase, enabling seamless and secure synchronization across users.
- Implemented an efficient QR-based sharing system, simplifying onboarding and completely eliminating password challenges.
- Managed exhibitions end-to-end at 5+ major industry events, strengthening brand presence and driving valuable B2B engagement.
- Honoured with the prestigious “Made in Lumens” award for significant product innovations and impactful contributions to growth.

Graduate Trainee - Lumens Technologies Pvt. Ltd August 2021 – March 2022

- Researched multiple communication protocols and adopted BLE Mesh for stable, low-internet connectivity in smart lighting.
- Built early Plexilent app prototypes for Android and iOS from the ground up, collaborating closely with firmware teams.
- Independently designed detailed UI/UX workflows and high-fidelity app interfaces using Figma and Adobe XD tools.
- Presented early product versions at major industry exhibitions, securing strong B2B client interest and driving brand growth.

EDUCATION

Year	Degree	Institution	Percentage
2021	B.E. (Electrical)	SIGCE, Navi Mumbai	74.21%
2018	Diploma	K.J. Somaiya Polytechnic	77.25%
2012	Class X	DAV Public School, Airoli	72.00%

PROJECTS

Plexilent IoT App & Rebrands (Professional Project)

- Developed a modular app framework powering 10+ white-labelled apps, including Bajaj Illumiga, Corvi, and many more.
- Built core features (Lighting Management System, scheduling, Human-Centric Lighting, and more) and rebranded for clients.
- Reduced development cycle by 40% through reusable architecture and automated build pipelines.
- Enabled consistent user experience across Android & iOS while supporting client-specific branding, features, and integrations.

Web Platform Management (Professional Project)

- Managed design, maintenance, and security of websites for plexilent.com, colossusworld.com, and evertstar.in.
- Mitigated DDoS and WordPress attacks to ensure secure and uninterrupted business operations.

Smart Street Pole Car Charger (College Project)

- Developed Android IoT app for street pole EV charging with real-time tracking, registration, and Firebase notifications.
- Designed charger firmware for live consumption reporting and engineered a compact, efficient electrical circuit.
- Created a product demo video showcasing system capabilities: [Video Link](#).

TECHNICAL SKILLS

Core Technical Expertise

- Mobile Development: Android (Java, Kotlin, XML, Android Studio), iOS (Objective-C, Swift, Xcode, Programmatic UI), MVVM, MVP, SDKs, CocoaPods, API design patterns, CI/CD pipelines for app releases, Cross-Platform Mobile Development.
- IoT & Embedded Systems: BLE Mesh, Wi-Fi, Firmware Development (C, C++), Arduino, MQTT, Gateway Firmware, Beacon Implementation, Lighting Management Systems
- Backend & Databases: Google Firebase (Realtime Database, Authentication, Crashlytics), MySQL, SQL, Object Box, RESTful APIs
- Web Development: HTML5, CSS, JavaScript, WordPress, Full-stack Development

Leadership & Management

- Team Leadership, Technical Mentoring, Project Planning, Agile Delivery, Cross-functional Collaboration
- Product Demonstrations, Exhibition Management, Client Engagement, Vendor & Partner Negotiations

Tools & Platforms

- Figma, Adobe XD, Lottie Animations
- Git/GitHub, Android Studio, Xcode, Firebase Console, WordPress CMS
- SEO, Analytics, Social Media Strategy, Cybersecurity & Threat Mitigation

CERTIFICATIONS

- **ANIIT in Cloud & Mobile Software Engineering**
NIIT Thane, CGPA: 9.0
- **Digital Transformation Program - Java Enterprise Apps with DEVOPS**
NIIT Thane, Good
- **Post Graduate Diploma in Industrial Automation**
Prolific, Thane | Completed
- **Arduino Programming and Hardware Fundamentals with Hackster**
Udemy | Completed
