YASH JARIWALA

Mobile Engineer (iOS & Android), Team Lead | +91 9820004296 | yashjariwala@gmail.com | linkedin.com/in/yashjariwala | yashjariwala.github.io

PROFESSIONAL SUMMARY

Mobile engineer with 5 years shipping native iOS and Android apps, and team lead since August 2025. Builds in Swift, SwiftUI, Kotlin and Java, from Figma designs to App Store and Google Play releases, across phones, tablets, watches and widgets. Strong in app architecture, offline-first sync, real-time data and performance. Takes complicated products apart and rebuilds them so simple that anyone can use them.

EXPERIENCE

Team Lead – IoT Applications - Lumens Technologies Pvt. Ltd — Aug 2025 – Present

- Head the mobile team and own the app roadmap across iOS, iPadOS, Android, watchOS and Wear OS, with 4,190+ commits since 2022.
- Cut a core Android flow from 59 s to 5 s, fixed status reporting for 265-device homes, and removed the top iOS crash.
- Architected a serverless backend on Firebase (Realtime Database, 40+ Cloud Functions, OAuth) that replaced an MQTT broker at near-zero cost for small installs.
- Shipped integrations with Alexa (live for 2 brands), Google Home, SmartThings, IFTTT and Siri Shortcuts (12 App Intents, incl. Hindi), plus a Python client on PyPI.
- Added 7 widget types, Live Activities, iPad and Android tablet layouts, and watch apps in SwiftUI and Wear OS.
- Unified separate white-label apps and two Bluetooth stacks into one codebase; a new brand app now ships in about 1 day.

Senior Application Engineer - Lumens Technologies Pvt. Ltd — Apr 2023 – Aug 2025

- Directed the full redesign of the Plexilent app UI across iOS and Android.
- Engineered the app architecture for real-time control of networks with 6,000+ devices, and upgraded both apps to Bluetooth Mesh 1.1.
- Bridged Objective-C and Swift on iOS with reusable UI libraries used across 10+ brand apps.
- Mentored 3 junior engineers and kept near-weekly Android releases through 2024.
- Delivered scheduling, automation and QR onboarding features, including a Camera2 scanner on Android.
- Managed 10+ industry exhibitions, secured 8 B2B partnerships and kept 6+ company websites at 99.9% uptime through DDoS and WordPress attacks.

Executive – New Product Development - Lumens Technologies Pvt. Ltd — Apr 2022 – May 2023

- Launched the Plexilent apps: first Google Play release in Oct 2022, App Store in Jan 2023.
- Directed the migration from Silicon Labs to Telink chipsets, cutting hardware costs by 30%.
- Introduced login-free sharing with Firebase and QR onboarding, removing passwords entirely.
- Ran 5+ industry exhibitions end to end.

Graduate Trainee - Lumens Technologies Pvt. Ltd — Aug 2021 – Apr 2022

- Evaluated communication protocols and selected BLE Mesh for stable, low-internet smart lighting.
- Prototyped the first Plexilent apps for Android and iOS with the firmware team.
- Created UI/UX workflows in Figma and Adobe XD and demoed early versions at exhibitions.

Intern - Magenta ChargeGrid — Sep 2019 – Nov 2019

- Designed EV charging circuits, compiled an India-wide charger database and negotiated parts with suppliers in China.

PROJECTS

Plexilent Smart Home App (App Store | Google Play | YouTube)

- Offline-first sync: control works with no internet, and a versioned cloud copy merges changes across every user's phone; joining a shared home takes 1 QR scan, with no sign-up.
- Shipped a native video player (RTSP to VideoToolbox), 8 sensor types, bulk firmware updates with Live Activity, 16 languages, and a web app that turns PDF floor plans into 3D maps.

White-label Brand Apps

- 10+ brand apps from one codebase, including Uniflow World, Galaxxy Hub (Kolors), Salt, Bajaj Illumiga, Bajaj Synchronous and Corvi, plus the SDK inside Crompton's SENZE app.

Smart Street Pole Car Charger (College Project)

- Android app with real-time tracking, registration and Firebase push notifications, plus charger firmware for live consumption reporting. Demo: youtu.be/FDqGDD8X_7s.

TECHNICAL SKILLS

- iOS: Swift, SwiftUI, UIKit, Objective-C, async/await, Combine, WidgetKit, App Intents, Live Activities, XCTest, Xcode, App Store Connect.
- Android: Kotlin, Java, Jetpack Compose, Coroutines, Android Studio, Camera2, Wear OS, JUnit and instrumented tests, Google Play Console.
- Architecture and Backend: MVVM, MVP, modular white-label apps, offline-first sync, REST APIs, OAuth, Firebase (Realtime Database, Cloud Functions, Auth, Crashlytics, App Check), AWS Lambda, Python, MySQL.
- Integrations and Hardware: Alexa, Google Home, SmartThings, Home Assistant, IFTTT, Bluetooth LE / BLE Mesh, ESP32, MQTT.
- Tools and Leadership: Figma, Adobe XD, Lottie, Git, Claude (AI-assisted development), Team Leadership, Mentoring, Agile/Scrum, Client Engagement.

EDUCATION

Year	Degree	Institution	Percentage
2021	B.E. (Electrical)	SIGCE, Navi Mumbai	74.21%
2018	Diploma	K.J. Somaiya Polytechnic	77.25%
2012	Class X	DAV Public School, Airoli	72.00%

CERTIFICATIONS AND AWARDS

- ANIIT in Cloud & Mobile Software Engineering, NIIT Thane (CGPA 9.0)
- Digital Transformation Program: Java Enterprise Apps with DevOps, NIIT Thane
- Post Graduate Diploma in Industrial Automation, Prolific Thane
- Arduino Programming and Hardware Fundamentals, Udemy
- “Above and Beyond” and “Made in Lumens” awards, Lumens Technologies
