YASH JARIWALA

iOS & Android Developer, Team Lead | +91 9820004296 | yashjariwala@gmail.com | linkedin.com/in/yashjariwala | yashjariwala.github.io

PROFESSIONAL SUMMARY

iOS and Android developer and team lead with 5 years building Plexilent, a smart-lighting app, from first prototype to the App Store and Google Play. Leads the IoT applications team since August 2025. Designs the screens, writes native code for phones, tablets and watches, and builds the cloud services underneath. Takes complicated products apart and rebuilds them so simple that anyone can use them.

EXPERIENCE

Team Lead – IoT Applications - Lumens Technologies Pvt. Ltd — Aug 2025 – Present

- Lead one codebase behind 10+ brand apps on iOS, iPadOS, Android, watchOS and Wear OS, with 4,190+ commits since 2022.
- Architected an MQTT-free gateway: an ESP32-C3 board listens to Firebase and relays commands over BLE Mesh, backed by 40+ Cloud Functions across 5 backends at near-zero cost for small installs.
- Launched Alexa skills for 2 brands, submitted Google Home, SmartThings and IFTTT integrations, and published pyplexilent on PyPI for Home Assistant.
- Cut Android mesh switching from 59 s to 5 s and restored correct status on a 265-device network that showed 264 devices offline.
- Unified 2 separate BLE stacks (Mesh and beacon) and merged the white-label apps; a new brand now onboards in about 1 day.
- Added 12 Siri Shortcuts (including Hindi), 7 widget types, Live Activities and tablet layouts.

Senior Application Engineer - Lumens Technologies Pvt. Ltd — Apr 2023 – Aug 2025

- Directed the full redesign of the Plexilent app UI across iOS and Android.
- Engineered the app architecture for networks of 6,000+ nodes and upgraded both apps to Bluetooth Mesh 1.1.
- Bridged Objective-C and Swift on iOS with reusable UI libraries used across 10+ brand apps.
- Mentored 3 junior engineers and kept near-weekly Android releases through 2024.
- Delivered Human-Centric Lighting with 48 daily set points, scheduling, lighting effects and Camera2 QR scanning.
- Managed 10+ industry exhibitions, secured 8 B2B partnerships and kept 6+ company websites at 99.9% uptime through DDoS and WordPress attacks.

Executive – New Product Development - Lumens Technologies Pvt. Ltd — Apr 2022 – May 2023

- Launched the Plexilent apps: first Google Play release in Oct 2022, App Store in Jan 2023.
- Directed the migration from Silicon Labs to Telink chipsets, cutting hardware costs by 30%.
- Introduced login-free mesh sharing with Firebase and QR onboarding, removing passwords entirely.
- Ran 5+ industry exhibitions end to end.

Graduate Trainee - Lumens Technologies Pvt. Ltd — Aug 2021 – Apr 2022

- Evaluated communication protocols and selected BLE Mesh for stable, low-internet smart lighting.
- Prototyped the first Plexilent apps for Android and iOS with the firmware team.
- Created UI/UX workflows in Figma and Adobe XD and demoed early versions at exhibitions.

Intern - Magenta ChargeGrid — Sep 2019 – Nov 2019

- Designed EV charging circuits, compiled an India-wide charger database and negotiated parts with suppliers in China.

PROJECTS

Plexilent Smart Home App (App Store | Google Play | YouTube)

- Cloud Mesh Sync: a versioned cloud copy of each network plus one provisioner per phone keeps shared homes in sync; joining takes 1 QR scan, with no sign-up.
- Shipped a native CCTV viewer (RTSP to VideoToolbox), 8 sensor types, Bulk OTA with Live Activity, 16 languages, and a web app that turns PDF floor plans into 3D maps.

White-label Brand Apps

- 10+ brand apps from one codebase, including Uniflow World, Galaxxy Hub (Kolors), Salt, Bajaj Illumiga, Bajaj Synchronous and Corvi, plus the SDK inside Crompton's SENZE app.

Smart Street Pole Car Charger (College Project)

- Android app with real-time tracking, registration and Firebase notifications, plus charger firmware for live consumption reporting. Demo: youtu.be/FDqGDD8X_7s.

TECHNICAL SKILLS

- Mobile: Swift, Objective-C, SwiftUI, WidgetKit, App Intents, Kotlin, Java, Android Studio, Xcode, watchOS, Wear OS, iPadOS, MVVM, MVP, CI/CD.
- IoT: BLE Mesh, Beacons, Wi-Fi, MQTT, ESP32, Firmware (C, C++), Arduino, Lighting Management Systems.
- Backend and APIs: Firebase (Realtime Database, Cloud Functions, Auth, Crashlytics, App Check), AWS Lambda, REST, Python, MySQL.
- Platforms and Tools: Alexa, Google Home, SmartThings, Home Assistant, IFTTT, Figma, Adobe XD, Lottie, Git, WordPress, Claude (AI-assisted development).
- Leadership: Team Leadership, Mentoring, Agile/Scrum, Client Engagement, Exhibitions, Vendor Negotiation.

EDUCATION

Year	Degree	Institution	Percentage
2021	B.E. (Electrical)	SIGCE, Navi Mumbai	74.21%
2018	Diploma	K.J. Somaiya Polytechnic	77.25%
2012	Class X	DAV Public School, Airoli	72.00%

CERTIFICATIONS AND AWARDS

- ANIIT in Cloud & Mobile Software Engineering, NIIT Thane (CGPA 9.0)
- Digital Transformation Program: Java Enterprise Apps with DevOps, NIIT Thane
- Post Graduate Diploma in Industrial Automation, Prolific Thane
- Arduino Programming and Hardware Fundamentals, Udemy
- “Above and Beyond” and “Made in Lumens” awards, Lumens Technologies
